SKILLS

Languages
- HTML, EJS, CSS, Sass, Less, JavaScript, TypeScript, PHP, Python, C#

Technologies & Frameworks
- TailwindCSS, Bootstrap, jQuery, React.js, React Router, Remix, React Hooks, React Hook Form, React Query, i18n, Redux, Next.js, Angular, Styled Components, Tauri, Headless CMS, SEO
- Node.js, Express, Nest.js, MySQL, PostgreSQL, MongoDB, REST APIs, HTTP, JSON, XML, YAML

Tools
- Git, GitHub, VS Code, Postman, Docker, Supabase, Vercel, Netlify, Figma, ESLint, Prettier, Jest, Vitest, TDD

PROJECTS

Spenso   *Link*
- Developed a personal finance management tool using React and Next.js for tracking spending and budgeting, with personalized visualizations of transactions using Chart.js to aid financial decision-making.

Salvage   *Link*
- Engineered an automated backup solution with React and Rust, including real-time monitoring of file changes and scheduled backups to safeguard important files and directories.

Blogs API   *Link*
- Developed the backend for a microblogging service with Nest.js and NeonDB, providing a robust and scalable foundation for the platform.
- Utilized Prisma ORM with PostgreSQL for efficient data management and implemented JWT tokens and OAuth protocols to secure user data and control access.
